rm	Potential Definition	Definition from Other Arlington Plans or Other Sources	Location in PSMP Update	Comments
1.1 public space (see also public realm, civic space)	Multi-functional spaces—such as parks, plazas, trails, streets, and recreation facilities—that support recreation and leisure and that are accessible and usable by all of Arlington's residents, workers, and visitors.	An array of public spacesparks, natural areas, attractive streetscapes and scenic views, pedestrian passageways, landscaped buffers, historical sites, community centers, cultural spaces and atheletic fields, amongst others helps to make Arlington County an attractive and hospitable community for families, individuals, workesr and visitors from all social and economic circumstances. (2005 PSMP)	Throughout	
		An open space designated on the regulating plan, accessible to all, including Plazas, Mini-Parks, and Neighborhoods Parks. (Columbia Pike Neighborhood Form Based Code)		
1.2 park/parkland	Land that is primarily used for recreation, leisure, or conservation of natural resources—including ancillary uses that support these primary uses (e.g., recreation facilities, storage, parking).			
1.3 plaza	Places of respite—primarily in high-density areas amid bustling streets and buildings—to sit, play and relax that may, depending on their design, also serve as small gathering and event spaces.	A public open space designated on the REGULATING PLAN that is not designed for active recreation structures such as ball fields and courts and has a maximum of 70 percent paved surface area. Plazas incorporate a higher percentage of paved surface area than other types of PUBLIC SPACES to accommodate a high pedestrian traffic level. Surface treatment and materials shall be at least 30 percent unpaved pervious surface (turf, groundcover, gravel, soil or mulch), excluding any public art or monument footprint. At least 50 percent of the unpaved pervious surface area shall be vegetated. (Columbia Pike Neighborhood Form Based Code)		
		In public and private ownership, are most commonly small-scale spaces offering seating, shade, and modest public amenities along public streets and sidewalks. These spaces are envisioned as extensions of the public street space and offer places for relaxation, socializing, and people watching. While most plazas will be privately owned and maintained, each should be fully accessible to the public. These spaces are not intended to satisfy the need for large urban parks described above, which can better accommodate other recreational uses. (Clarendon Sector Plan)		
1.4 natural lands (see also natural resources, preserved natural area)		Natural Lands are considered a subset of Open Space and refer to parcels of land "which have experienced only minimal human alteration or have recovered from anthropogenic disturbance under mostly natural regimes of species interaction and disturbance." (NRMP)	NRMP description in Planning Context section; quality of life benefits section	
1.5 historic resources	Areas with a defined historical architectural, archaeological, and cultural component. Examples are County-owned historic buildings (community centers, schools, offices), civil-war forts, cemeteries, Native American sites, structures (such as bridges or roads), or other sites determined to have historical value or interest to the community.			
1.6 casual use space	Spaces intentionally designed to support casual, impromptu use, including relaxation, reflection, informal activities, and connection with nature. Some casual use spaces are generally available, while others are available at designated times.		1.3.1.	

1.7 recreation Athletic or leisure activity undertaken for enjoyment, either in an organized or informal capacity. 1.8 recreation facility Structure built, equipment installed, or space designed indoors or outdoors to enable one or more particular recreational activities. 1.9 recreation center A building that is designed to enable indoor recreation. 1.10 community center A building that is designed to enable a wide range of community-focused and civic programs and events, which may include recreation. 1.11 multi-use activity center A facility or group of facilities that can accommodate active recreation and is designed for maximum flexibility of use. 1.12 sports complex A facility or group of facilities that is designed to accommodate specific team or individual athletic activities, including tournaments. 1.13 primary multi-use trail A key off-street recreation and transportation corridor that may connect directions of travel. It includes seating areas, signage, and trail-specific lighting. The user base for a primary multi-use trail is broad, including pedestrians, runners, joggers, cyclists, and skaters. Shared-use Trail – A path segregated from motorized wheelchairs. (Master Transportation Plan)	
1.8 recreation facility Structure built, equipment installed, or space designed indoors or outdoors to enable one or more particular recreational activities. 1.9 recreation center A building that is designed to enable indoor recreation. 1.10 community center A building that is designed to enable a wide range of community-focused and civic programs and events, which may include recreation. 1.11 multi-use activity center A facility or group of facilities that can accommodate active recreation and is designed for maximum flexibility of use. 1.12 sports complex A facility or group of indoor or outdoor facilities that is designed to accommodate specific team or individual athletic activities, including tournaments. 1.13 primary multi-use trail A key off-street recreation and transportation corridor that may connect Arlington to surrounding jurisdictions and the larger regional trail network. A primary multi-use trail is paved, at least 10' wide, and striped to separate directions of travel. It includes seating areas, signage, and trail-specific lighting. The user base for a primary multi-use trail is broad, including Shared-use Trail – A path segregated from motorized wheelchairs. (Master Transportation Plan)	1.2.2. 1.2.2., 1.4.6. 1.2.4. 1.2.3. e use of Existing Public Space System
enable one or more particular recreational activities. 1.9 recreation center A building that is designed to enable indoor recreation. 1.10 community center A building that is designed to enable a wide range of community-focused and civic programs and events, which may include recreation. 1.11 multi-use activity center A facility or group of facilities that can accommodate active recreation and is designed for maximum flexibility of use. 1.12 sports complex A facility or group of indoor or outdoor facilities that is designed to accommodate activities, including tournaments. 1.13 primary multi-use trail A key off-street recreation and transportation corridor that may connect Arlington to surrounding jurisdictions and the larger regional trail network. orm	Potential Definition	Definition from Other Arlington Plans or Other Sources	Location in PSMP Update
erm 2.7 street	Potential Definition		Location in PSIVIP Opdate
2.7 street		Includes all public space (streets, squares, pedestrian pathways, civic greens, parks)—including any transit service operator passenger platform—but not	
		garage entries or alleys. (Columbia Pike Commercial Centers Form Based	
		Code)	
2.8 streetscape		the urban element that establishes the major part of the public realm. The	
		streetscape is composed of thoroughfares (travel lanes for vehicles and	
		bicycles, parking lanes for cars), public frontage (sidewalks, shy zones) as well	
		as the visible private frontages (building facades and elevations, yards, fences,	
		awnings, etc.), and the amenities of the public frontages (street trees and	
		plantings, benches, streetlights, etc.). (Crystal City Sector Plan)	
2.9 street-space		All space forward of and between required building lines, including but not	
		limited to streets, Plazas, pedestrian pathways, Mini-Parks, Neighborhood	
		Parks, sidewalks, and transit service operator passenger platforms, but not	
		garage entries or alleys. (Columbia Pike Neighborhood Form Based Code)	
2.10 centering space		Centering spaces are prominently located, highly visible, primarily hardscape	
		spaces defined by public streets and buildings with active ground floor uses.	
		These are spaces that attract and accommodate major public activities and	
		provide sites for special events, art installations, and community gatherings.	
		Such spaces should provide seating, public art, and facilities to support special	
		events and activities, and could include space-activating elements such as	
		fountains or spaces to stage events. (Clarendon Sector Plan)	
2.11 urban park		those serving the needs of both surrounding neighborhoods and the core	
		area's residential and work populations. These parks should be planned and	
		designed to provide an array of public space activities and programs. Open,	
		landscaped areas, as well as multi-use, basketball courts, handball courts,	
		community fields, community canine areas, tennis courts, circuit courses and	
		climbing walls, should be considered for these urban parks to promote	
		activity, exercise, and foster a sense of safety. Urban parks should be located	
		along primary pedestrian and bicycle ways and offer green spaces with shade	
		trees and seating. (Clarendon Sector Plan)	
2.12 measured metamol area (and	e las		
2.12 preserved natural area (see		Undeveloped areas that are characterized as having a mix of mature trees,	
natural lands, natural resour	(ces)	dense tree canopy, steep slopes, hydrological features (such as wetlands or	
		seep), or Resource Protection Areas (RPA). These areas are in private	
		ownership and have limited accessibility. Preserving these lands and engaging	
		in invasive plant removal will enhance the local ecology, absorb stormwater	
		runoff, provide wildlife, and enhance the community's open space network.	
		(Columbia Pike Neighborhood Form Based Code)

Term	Potential Definition	Definition from Other Arlington Plans or Other Sources	Location in PSMP Update
3.1 green space		Community space consisting of land (such as parks) rather than buildings.	
		(Merriam-Webster Dictionary)	
		[Greenspaces] broadly encompass publicly accessible areas with natural	
		vegetation, such as grass, plants or trees [and may include] built environment	
		features, such as urban parks, as well as less managed areas, including	
		woodland and nature reserves. (K. Lachowycz, A.P. Jones, Towards a better	
		understanding of the relationship between greenspace and health:	
		Development of a theoretical framework, Landscape and Urban Planning, 118	
		(2013), pp. 62–69)	
		Green space is defined as any vegetated land adjoining an urban area and	
		includes bushland, nature reserves, national parks, outdoor sports fields,	
		school playgrounds and rural or semi-rural areas immediately adjoining an	
		urban area. (Chong et al., 2013, Neighbourhood safety and area deprivation	
		modify the associations between parkland and psychological distress in	
		Sydney, Australia)	
3.2 open space	Land that is protected by the government for public use and cannot have any	Open space is any open piece of land that is undeveloped (has no buildings or	
	buildings or roads built on it.	other built structures) and is accessible to the public. Open space can include:	
		green space, schoolyards, playgrounds, public seating areas, public plazas,	
		vacant lots. Open space provides recreational areas for residents and helps to	
		enhance the beauty and environmental quality of neighborhoods. (EPA)	
	Outdoor space that is used for recreation, leisure, or conservation irrespective	9	
	of ownership or public accessibility.
