Can we move today's meeting to 1:30 instead of 1?

That is awesome to hear John!!! I will be in the area next week. Would you like to catch up on Monday?

Thanks,
Kelley

Hi Kelley,

re:Invent was Amazing. Anil and I have pre-ordered the "DeepRacer" League.

Let us know when you will be in the area.

John

Anil and John

Welcome back from re:Invent. I would love to catch up with you both sometime soon to get your thoughts and feedback. In the meantime, I wanted to make you aware that as part of our expanded portfolio, we're making our digital Exam Readiness courses -- previously available only to employees — free to customers and partners. These courses help learners prepare to take for AWS Certification exams, and they're built by AWS. We've also expanded our digital training portfolio with new courses, ranging from fundamental to advanced topics, covering a range of AWS services and categories, for a total portfolio of 300+ courses. Plus, we added dozens of new courses during re:Invent as new AWS services were launched in keynotes. Combined with our enhanced user experience, we've significantly expanded our capabilities on aws.training to help customers and partners build new cloud skills and learn about the latest services whenever and wherever it's convenient.
