Hi Jack,

Attached is the POC scope for the homelessness initiative that was developed last Fall I believe. Jesse Metcalf from AWS was the one that worked with DHS on the POC. The idea was to create a Data Lake to ingest that data(similar to the one we are working on in AWS).

I've been talking to Chris Green a bit about it as well to get some technical background.

Hope that info helps.

Laura, thanks. To clarify it is not the Homeless Initiative she is interested in.

Apparently, your team ( I am not sure who) demonstrated a product that was developed for the federal sector the permits ingestion of client records from multiple sources and then provides for deduplication and cleansing. This is her primary interest right now. John, is that your understanding?

Hi, Jack!

Great seeing you in passing this week! I'm working with Laura Szlavin to schedule a meeting with you and Anita. I look forward to discussing the homelessness initiatives!

Have a great weekend!

Best Regards,  
Laura

Laura, good seeing you in passing. I want to see if we could have further discussions as the homeless initiatives we are undertaking.

Can we arrange a Skype Meeting ?

Jack
