Subject: RE: Health Equity and Fiber

Kelley,
I want to be sure that we are clear as to the purpose of the meeting is today. It is to provide awareness as to extent and location of the County's fiber infrastructure and determine what benefit this would be to both the proposed HQ campus in National Landing and the provision of a community wide platform that would link higher education, AWS, entrepreneurs and the County.

Jack
I have spoken with our Fiber/Transport Solutions/Systems Networking team (cc'd above) about your project. They are excited at the possibility of working with you and would love to connect with you to discuss your specific requirements and asks and how/where AWS can assist. Understanding your timeframe, they will be reaching out to you directly to schedule a call and a meeting. Stay tuned J

Thanks,
Kelley

Hardik, hope all is well. We are exploring initiatives to enhance our health services to the community through leveraging fiber and wireless infrastructure. I came across the work of Dr. Atul Gawande. Are his initiatives part of your AWS initiatives? We would love to see if there are any synergies.

Thanks

Jack
