December 2018: AWS re:Invent Launch Series

We have a vast galaxy of upcoming tech talks that cover some of the top new service launches from re:Invent 2018.

[View All Sessions](#)

Compute

[Developing Deep Learning Models for Computer Vision with Amazon EC2 P3 Instances](#)

December 19, 2018 | 1:00 PM PT

Learn about the different steps required to build, train, and deploy a machine learning model for computer vision.

[Register now](#)

Containers

[Introduction to AWS App Mesh](#)

December 11, 2018 | 1:00 PM PT

Learn about using AWS App Mesh to monitor and control microservices on AWS.

[Register now](#)

Databases

[Introduction to Amazon RDS on VMware](#)

December 10, 2018 | 1:00 PM PT

Learn how Amazon RDS on VMware can be used to automate on-premises database administration, enable hybrid cloud backups, read scaling for on-premises databases, and simplify database migration to AWS.

[Register now](#)

[Serverless Databases with Amazon Aurora and Amazon DynamoDB](#)

December 13, 2018 | 9:00 AM PT

Data Lakes & Analytics

[Introduction to AWS Lake Formation - Build a Secure Data Lake in Days](#)

December 10, 2018 | 11:00 AM PT

AWS Lake Formation (coming soon) will make it easy to set up a secure data lake in days. With AWS Lake Formation, you will be able to ingest, catalog, clean, transform, and secure your data, and make it available for analysis and machine learning.

[Register now](#)

[Introduction to Amazon Managed Streaming for Kafka \(MSK\)](#)

Learn about the new serverless features and benefits in Amazon Aurora and Amazon DynamoDB, use cases and how to get started.

[Register now](#)

December 12, 2018 | 11:00 AM PT

Learn about features and benefits, use cases and how to get started with Amazon MSK.

[Register now](#)

Enterprise & Hybrid

How to Use "Minimum Viable Refactoring" to Achieve Post-Migration Operational Excellence

December 19, 2018 | 11:00 AM PT

Learn how to improve the security and compliance of your applications in two weeks with "minimum viable refactoring".

[Register now](#)

IoT

Introduction to New AWS IoT Services

December 17, 2018 | 11:00 AM PT

Dive deep into the AWS IoT service announcements from re:Invent 2018, including AWS IoT Things Graph, AWS IoT Events, and AWS IoT SiteWise.

[Register now](#)

Machine Learning

Introducing Amazon SageMaker Ground Truth

December 10, 2018 | 9:00 AM PT

Learn how to build highly accurate training datasets with machine learning and reduce data labeling costs by up to 70%.

[Register now](#)

Introduction to Amazon Forecast and Amazon Personalize

December 12, 2018 | 1:00 PM PT

Learn about Amazon Forecast and Amazon Personalize - what are the key features and benefits of these managed ML services, common use cases and how you can get started.

[Register now](#)

Introduction to AWS DeepRacer

December 11, 2018 | 9:00 AM PT

AWS DeepRacer is the fastest way to get rolling with machine learning, literally. Get hands-on with a fully autonomous 1/18th scale race car driven by reinforcement learning, 3D racing simulator, and a global racing league.

[Register now](#)

Introduction to Amazon Textract: Now in Preview

December 13, 2018 | 1:00 PM PT

Learn how Amazon Textract, now in preview, enables companies to easily extract text and data from virtually any document.

[Register now](#)

Networking & Content Delivery

Introduction to AWS Transit Gateway

December 17, 2018 | 1:00 PM PT

Learn how AWS Transit Gateway significantly simplifies management and reduces operational costs with a hub and spoke architecture.

Robotics

Introduction to AWS RoboMaker, a New Cloud Robotics Service

December 18, 2018 | 11:00 AM PT

Learn about AWS RoboMaker, a service that makes it easy to develop, test, and deploy intelligent robotics applications at scale.

[Register now](#)

[Register now](#)

Security, Identity, & Compliance

Introduction to AWS Security Hub

December 17, 2018 | 9:00 AM PT

Learn about AWS Security Hub, and how it gives you a comprehensive view of high-priority security alerts and your compliance status across AWS accounts.

[Register now](#)

Serverless

Serverless Application Best Practices

December 11, 2018 | 11:00 AM PT

Learn how to build the best serverless application using AWS Lambda.

[Register now](#)

Building API Driven Microservices

December 13, 2018 | 11:00 AM PT

Learn how to build, deploy and manage APIs with API Gateway.

[Register now](#)

Storage

Introduction to Amazon FSx for Windows File Server

December 12, 2018 | 9:00 AM PT

Learn about Amazon FSx for Windows File Server, a new fully managed native Windows file system that makes it easy to move Windows-based applications that require file storage to AWS.

[Register now](#)

Introduction to Amazon FSx for Lustre

December 18, 2018 | 9:00 AM PT

Learn about Amazon FSx for Lustre, a fully managed file system for compute-intensive workloads. Process files from S3 or data stores, with throughput up to hundreds of GBps and sub-millisecond latencies.

[Register now](#)

What's New with AWS Storage - A Recap of re:Invent 2018 Announcements

December 14, 2018 | 1:00 PM PT

Learn about the key AWS storage announcements that occurred prior to and at re:Invent 2018. With 15+ new service, feature, and device launches in object, file, block, and data transfer storage services, you will be able to start designing the foundation of your cloud IT environment for any application and easily migrate data to AWS.

[Register now](#)

Introduction to New AWS Services for Data Transfer

December 18, 2018 | 1:00 PM PT

Learn about new AWS data transfer services, and which might best fit your requirements for data migration or ongoing hybrid workloads.
