Subject: Bike Summit plenary_framing questions for discussion

Attachment(s): "2019 Bike Summit_Sunday 1.30 pm plenary panel prompting questions.docx"

Hello again, all. Thanks for the great discussion and guidance last week re: the plenary panel discussion at the National Bike Summit on Sunday, March 10th. Attached please find my first stab at developing some framing questions for the discussion. This is only a draft, and I am interested in any suggestions you have for making them better.

A couple of things:

- The questions are intentionally broad-ish, so as to allow for minor deviations and for us to follow interesting threads they may develop as we go.
- The questions are intentionally few, so as to allow for insertion of a good number of audience questions to be sprinkled throughout.

I look forward to meeting everyone in person, and please don't hesitate to provide feedback.

Thanks – safe travels to all!
