**Subject:** FW: Examples of online community meetings

Andrea – As discussed yesterday, below are 2 samples of the format for a potential community meeting if the County hosted. After you all had a chance to review and discuss, let me know what you want to do.

Thanks  
Christina

**Subject:** Examples of online community meetings

Christina, below are two examples of community meetings held this past year that you could share with Amazon. In each scenario the events were livestreamed on Facebook, there was an invited in-person audience (40-50 folks), and questions were taken from people who joined online. (And the videos were archived on YouTube too.) A similar approach could be done with folks from Amazon and guests, plus a moderator (TBD). The audience could include targeted commission chairs and community leaders.
