Subject: Introducing Amazon

Dear Howard and Dave,
Good morning. I would like to introduce to you Jennie Massey (Senior Manager Public Policy, Labor and Employment) and Ardine Williams (Vice President, People Operations) of Amazon. We met with them yesterday and had a very informative discussion about Amazon and its recruitment experiences at other facilities. It will be a few more months before they can provide information about its specific hiring needs at the new location. However, they would like to meet with key stakeholders and conveners in the Washington area that could assist Amazon as the company ramps up its operations at National Landing. We mentioned your names since we know that you will be a wonderful resource for them. They have already met with Dr. Murphy at APS.

Dave, I know you will find this interesting. Ardine is a top Amazon executive recruiter and was a U.S Army Captain. She has implemented veterans hiring initiatives for Amazon.

Regards,
Sindy

All,

Thanks so much for your time and guidance yesterday. We really enjoyed the conversation and appreciate your continued support.

Sindy, could you introduce Ardine and myself via email to David Remick at the Workforce Investment Board and Howard Feldstein at the Employment Center? We'd like to schedule meetings with both in the near future.

Thanks again,
Jennie
