Subject: RE: 1/23/ HQ2 Event at Virginia Tech Reminder

Steve,

We have gotten phenomenally positive feedback about last night's event. It all thanks to you and the our other five rock star panelists that provided outstanding insight on HQ2 and what it means to region. We will producing some notes from the meeting that we will share with all attendees and we will also include the links to the National Landing JBG Video, The Arlington County Economic Development page on HQ2 and the CCI Cybersecurity Blueprint.

I can't thank you, Jack Christina, Christie, Brandy and Charles enough for such a great event. I've added to Brandy and Charles to the email thread so they can part of the discussion too.

Thanks again and warm regards,

Mike

Mike -

Let me echo Jack's sentiments. You certainly know how to assemble a terrific panel. I look forward to working with you and SIM in the future.

Warm regards,
Steve

Mike,
Thank you so much for inviting me. What a great panel to participate on.
Jack

Michael,

I have asked Christina Winn, my Director of Business Investment that worked with me on the Amazon HQ2 deal to stand in for me for the panel discussion this evening.
I apologize for the last minute change in my schedule.

I have been asked by the Secretary of Commerce to attend a Hearing in Richmond on two Amazon Bills that are going in front of the full committee today.
They have also asked me to attend the Virginia Economic Development Partnership Meeting tomorrow in Richmond. This often happens during the Legislative Session, so I am use to it

I know the panel will be great.

Best,

Victor

Victor, Jack Christie and Steve,

Just a reminder that our event is tomorrow. Please plan on arriving by 5 PM so we can go through a quick review of the flow for the discussion. We have two additional panelists that got added at the last minute, Brandy Salmon, the Associate Vice President for Innovation and Partnerships at Virginia Tech and Dr. Charles Clancy, the Executive Director of Virginia Tech's Hume Center for National Security and Technology. My plan is to have the Virginia Tech panelists focus on the Innovation Center and the education component stemming from the HQ2 agreement.

I think we have a great program and I know all of you will do great tomorrow!

Thanks again for agreeing to participate.

Mike
