Thank you for sharing this. Sindy Yeh from my team will continue to be involved and she will pull me in when required. It looks like an exciting direction.

Victor

Subject: CCI - Follow up Information and Teleconference

Dear Colleagues:

Thank you for participating in the open dialogue at our meeting at Marymount University. Thank you so very much to Dr. Diane Murphy for hosting us at Marymount's beautiful facility. I have attached a list of attendees.

I will schedule a teleconference in March to continue the discussion. The primary objective of this call will be to coalesce on moonshot goals for each of the objective areas of CCI: workforce development, research and commercialization of technology. We should think broadly beyond the Blueprint and consider our collective priorities and where we can have most impact as a region. We will also discuss acquisition of any necessary data to meet the VRIC requirements to certify a Northern Virginia CCI Node.

During our meeting, Josh Levi of NVTC agreed to provide a copy of the 2018 Greater Washington Technology Workforce Needs Assessment (attached or by direct link www.NVTC.org/2018NeedsAssessment). Please direct any questions about the document to John Shaw (jshaw@nvtc.org).

Also, I distributed hard copies of a summary of enrollment in cyber related programs in universities and colleges in the Commonwealth. These data were gathered as part of Virginia Tech's data call during development of the CCI Blueprint. The enrollment numbers are not up to date and programs are missing. May I ask our Universities and Colleges to review the attached electronic spreadsheet and modify using track changes and return to me at your earliest convenience. These data may be useful in the Node Certification process. We will need to conduct a similar inventory of our research portfolios.

Please send me names and contact information for anyone who you feel should be a part of the Northern Virginia node. I will include them in the invitation to our March call.

I will assemble and distribute notes from our meeting along with information about the teleconference in March.

Thank you so very much for your support, interest and patience as we organize around our common objectives. I appreciate all of you and look forward to getting to know you and sharing in some success in the days ahead.

Warm regards, Liza
