OPTION 3

Proposed Strategies for Gathering Comments/Taking Questions

- Consideration: Stack Topics? Random Topics?
- Stand/Line Up at the Microphone (need multiple microphones set up in orchestra aisles and on the balcony)
- Roving the Microphone (could be challenging in a fixed auditorium seating arrangement)
- Hand Index Cards to the Aisle (Staff team pick up, review team to organize; pass to moderator)
 - Team could organize what they send to moderator –by topic
 - Could mean returning to topics---throughout the evening to allow NEW/LATER questions and comments to surface
- Use Technology –using text and twitter –using different numbers and hash tags to stack topics
 - Allows Anonymity
 - Allows stacking
 - Requires fewer people running around and easier for participants to submit in real time
 - Engages in person and virtual audiences at the same time
- Provide Combination of CARES AND Technology (allows for participation for individuals who don't have cell phones; data; or access)
- Offer simultaneous translation services (Considerations-Spanish, Amharic, Mongolian, Arabic)
 - NOTE: Will need Amazon's assistance to acquire enough headsets to meet audience needs
 - Translators available to capture incoming text/twitter -and translate to English for the panel
