Sorry that I missed your call back.

I heard that you all have the green light to go through the County's existing AWS account to jump start the POC by reaching out to David Herlihy.

They would like to do a live demo to put it to the test. Would Tues, Wed or Thursday January 8-10 work to bring them in and do a demo?
>
> Second – Can you share the data dictionary for the 3 datasets we're proposing for the POC. The field headers, any formatting requirements, unique identifiers, the data sources (although I think we have the data sources at a high level: HMIS, Cerner, and Visual Homes. Basically, this information can give us a jump start on structuring the data.
