Subject: I invite you to participate in the AWS City on a Cloud Challenge

Good morning [Arlington team](#)

In speaking with your previous AWS Account Executive (Laura Dennis), I thought [Arlington County](#) would be an ideal candidate for the [AWC City on a Cloud Challenge](#) (especially **the Dream Big Award**). The City on a Cloud Innovation Challenge is an annual competition to encourage innovation in government. [Learn](#) how previous winners are using their credits to innovate on behalf of their citizens.

Tell us how your organization uses the cloud to innovate for a chance **to win up to \$50,000 in AWS Promotional Credit** to use toward a qualifying program. **Enter by Friday, May 11, 2018**

Categories for applicants include:

- **Best Practices Award** for existing local government or education solutions running on AWS
- **Partners in Innovation Award** for local government or education applications running on AWS submitted by commercial or education entities
- **Dream Big Award** for local government or education solutions that are still in the idea or planning stage but are intended to run on AWS
- **We Power Tech Award** for organizations that primarily serve underrepresented groups (including, but not limited to, communities of low- and moderate-income populations, recent immigrants, communities of color, youth, the elderly, individuals with disabilities, and LGBTQ individuals)
