**Subject:** Re: Meeting with Amazon Web Services

Hi Jack,

Kelley is on fire going through multiple follow up calls to work on all action items from our meetings. One of those was blockchain templates. We just wrapped up an internal call with AWS blockchain expert.

Three follow up steps from that:

1. Please visit <https://aws.amazon.com/blockchain/templates/>. There is a ton of information as well as cloudformation template. Anil, if you want to start looking at them and playing with them (it may spin up a node that may start showing up on your AWS bill).
2. We can talk more in depth about your use case at the public sector summit.
3. We can set up a call with our Blockchain expert for the week of June 25<sup>th</sup> to provide further guidance.

Thanks. See you next week.
