I understand completely Jack. Let me know if anything changes and before/as you enter your budget discussions, I'd love to sit with you and look at how we may be able to help you in terms of cost savings. I'll look over my notes to see where we can help you see immediate savings while helping you with your digital equity and health equity initiatives

Kelley, the challenge is the budget discussions and other possible major announcements that might require 'all hands' to the pump. Better to take a pass now.

Jack do you want me to ask that you be re-added to the list if another pass becomes available? Any idea when you would know if you would be able to attend?
