METRORAIL – This location is very easily accessible from the Orange line as the building sits on top of the Courthouse Plaza Metrorail Station. If you follow the regular Metro exit path, the building faces the AMC Theatre on the Plaza, but here is a shortcut note that will save you time. When you exit the train, take the escalator from the platform to the first level and exit the turn styles. If you look to your immediate right, you will see an elevator in a rather dark corner. Take the elevator to street level and enter the glass doors marked 2200. The secret is that 2100 and 2200 Clarendon Blvd are the same building. Go to the back of the lobby past the elevators and turn left into either of the dark wooden doors. You will arrive in the lobby of Arlington County Courthouse building. Turn to your left and take the elevators to the 5th floor.

*** Two & four hour metered parking is available at the east end of our building adjacent to N. Courthouse Road. There is also a parking garage directly under our building that provides both metered and long-term parking at parking meter rates (25 cents for 15 minutes). The garage is accessible from either Clarendon Blvd, or from the intersection of N. 14th and Veitch Streets. **The Kiosk to pay for parking is on level G1 in the 2100 Building.**

*** Additional public transportation by bus and/or by subway is available by calling the Washington Metropolitan Area Transit Authority at (202) 637-7000.
