Subject: Re: CCI - Follow up Information and Teleconference

Attachment(s): "agenda-item-4-c---cci-instructions-for-application-for-certification-as-a-regional-node.docx", "CCI-Blueprint final.pdf"

Greetings:

Thanks again to all of you who were able to participate in our CCI Northern Virginia Node planning meeting and welcome to those of you who have expressed interest in being involved in the Node strategic planning effort. If you need background on the Commonwealth Cyber Initiative, please see the attached document entitled *CCI Blueprint final*.

We have received the Instructions for Application for Certification of the Regional Node (see attached *agenda-iten-4c-cci*). As we anticipated, a good deal of data will need to be assembled to meet the requirements for Certification. We expect more details to be clarified at the upcoming VRIC meeting scheduled for March 12 (<http://www.schev.edu/index/institutional/grants/va-research-investment-fund/vric-meetings>).

We would like to schedule a call with you on **Friday March 15 at 9:30 - 10:45 AM** to discuss some of the specific definitions of the data required for Certification and to discuss how to move forward with the certification process and parallel strategic planning for the Node.

To support efficiency, we will pull together a smaller team to develop the Certification package on behalf of the NoVa Region Node, but you, and a larger group beyond the initial interest group, will need to provide baseline data to support the package. Please take a look at the data call and be prepared to let us know what data can be easily assembled and what data will be more challenging for you to collect.

We look forward to continuing the discussion on March 15.

The call in number is:

+1-240-454-0879 USA Toll

Access code: **643 840 418**

Please let me know if you have any questions.

Warm regards, Liza
