Subject: Amazon Article for Virginia Economic Review

Team National Landing:

VEDP is launching a new quarterly magazine, Virginia Economic Review, in 2019 and our first issue is going to be about tech in Virginia. The feature article of the inaugural edition will be about the Amazon project.

Our writer, Mike Ward (cc'ed), would like to speak with you about the process, the collaboration, and the project itself.

I'll let y'all take it from here....

Lori
