Jay,

Thank you. I have a call with Jerome Davis, MWAA this afternoon and we will probably discuss the fact that your Team will probably be in every meeting and our Team will go "in and out" as

Victor Hoskins
Executive Director
Arlington Economic Development

Hi Victor,

Thanks a lot for teeing this up. This conversation will be very useful in helping determine the roles/responsibilities of each party on this project so that we can start advancing it. Given that, we'd recommend having Doug Allen (VRE's CEO) at the table as well. Their train station will interface directly with the ped bridge, and they have been eager for direction from these parties as they plan their station. Let me know if you have any questions, or would like our help in connecting with VRE. Thanks,

Jay

Now that Amazon HQ2 has been announced, we can now begin the work toward moving the Bridge Design Process forward. With the approval of the concept by your CEO Jack Potter, JBG CEO Matt Kelly, VEDP CEO Stephen Moret and Arlington County Manager Mark Schwartz you and I can bring together the Team to

move this project forward.

The JBG, State and Arlington Team members will be coordinated by Maria Leonzo, my Executive Assistant and I can have her reach out to your assistant to bring together everyone.

We will have our Transportation Director from Arlington County along with the appropriate design and engineering representatives from JBG and the State. There will also be a representative from the Crystal City Bid. If you could align the appropriate design and facilities staff from MWAA, I think we will be able to use this meeting to frame the process going forward.

Please let me know if this works for you.

Best,

Victor
